MobinTeleCom, the Helsinki based GSM-Satellite security concept solutions provider is inviting the global Shipping Industry and Security experts to attend a **Global Security Conference** to be held at the **British Embassy Helsinki** on Wednesday, 20th October 2004

The agenda of the Conference shall include a presentation outlining Definitions of Conditions by Department of Homeland Security - USA, on **How will the Department of Homeland Security USA policy demands as of Sunrise 2005, affect the global shipping industry.**

Global Security Monitoring Conference

British Embassy Helsinki.

With the launch of enabling in-flight GSM connectivity on board commercial aircraft at Seattle recently, the deployment of a similar facility on High Seas is greeted with interest and enthusiasm, by the crew, the shipping, the logistical and the security industry, as a means of introducing seamless cost effective security monitoring.

Apart from seamless GSM connectivity, Anywhere-Anytime, the TriaGnoSys-MobinTeleCom global concept will create a new revenue stream to several participants of the concept as an additional benefit.

The demand for tighter security on containers destined for USA is further enhanced by the Department of Homeland Security (DHS) and Customs and Border Protection (CBP) directive effective as of Sunrise 2005.

Please visit the MobinTeleCom web site for detailed information.

State-of-the-Art pioneering solutions delivered by MobinTeleCom Oy, supported by TriaGnoSys GmbH, (Spin-off of German Aerospace Center), Singapore Technologies, TeliaSonera Group, Securitas Group, Hansabaltic Oy, Telenor USA, Inmarsat, WS2 Ltd, on The Global Security Monitoring Solution on Container Security Initiative (CSI), shall include the Logistical Structure of a Complete Telematics Journey Report on RFID Container Door Seal Monitoring using GSMGSM Satellite Technology via InmarsatFleet.

The subject should interest all those shippers and consignees who are interested in gaining speedy access of their merchandise into US territory. Over fourteen million TEUs (twenty foot equivalent units) are expected to reach the shores of USA during 2004, with a projected growth of 6 - 8% per annum, out of a global container population exceeding one hundred million.

The seating at the event is restricted to thirty five (35) participants only, by Official Invitations on a First Come, First Served basis. Interested participants are advised to request an invitation immediately by email or fax.

There is no charge for the Participation.

Refreshments, Luncheon, and Cocktails after the Conference will be served.
